"SPYISM."

Is What Barry Calls Powderly's Administration of the Affairs of the Knights of Labor.

INDIANAPOLIS, Nov. 20.—"Spyism" is the theme of T. B. Barry's second chapter in the serial story he is publishing about the actions of the Powderly administration of the affairs of the Knights of Labor. He goes over the actions of the various delegates at Richmond, at Minneapolis, and in this city and accuses them of spying upon the actions of all the delegates suspected of opposing Powderly. In this instalment of the story, which was given to the press late last night, he also gives the names of members of the order whom he says Powderly and the board discharged to make places for non-union clerks who were their pets.

Barry and his friends are expressing great indignation at the action of the general assembly about the report of the grievance committee in the cases of Gleason and Bloomy. They say those cases are similar to that of Barry, and the action was very inconsistent. Already telegrams of sympathy and expressing a desire to join him have been received from many parts of the country by Barry. These come, in several instances, from officers of local assemblies of Knights of Labor, and Barry counts on their support in his new organization.

The report of the committee on law provides a reduction of two members in each board besides the union of the offices of secretary and treasurer. It also provides that the general master workman shall be chairman of the board.

A BAD WRECK.

Several Persons Injured in an Ohio Railroad Wreck.

CINCINNATI, Nov. 20.—The Harrison accommodation on the Cincinnati, Indianapolis, St. Louis and Chicago road, due here at 7:18 this morning, left the track, by reason of the spreading of the rails, about two miles this side of Harrison, and overturned five coaches.

The train of five cars was turning the curve when the outer rail broke under the engine, which remained on the track, but the cars were all thrown off and overturned in the old canal bed. Only the rear car had a fire in it, and the wreck caught fire. The engineer ran back and soon put out the flames. There were about forty passengers aboard, nearly all of whom were more or less injured.

The following however are those most seriously hurt: Mrs. Martha Moore, aged 80 years, of Wilmington, Ohio, will probably die; Mrs. Margaret Carroll, aged 60 years, Cincinnati, internal injuries; James P. Dick, Harrison, Ohio, body cut about the head; Miss May Green Harrison, wounds in the head and face; George Yeager Harrison, right hand hurt; Harvey Hamilton Harrison, seriously hurt in the head. Mr. Scott Small, of the Cincinnati *Times Star*, was in the wreck and was painfully cut and bruised, but made his way to the office with his report.

NEW ALBANY, Ind., November 20.—Judge Simeon K. Wolfe died at his home in New Albany yesterday at 10:30 o'clock a. m., after a brief illness of pneumonia, in the sixty-fifth year of his age.

NO SPECIAL SESSION.

The Hoosier Legislators Not Likely to be Called Together.

INDIANAPOLIS, Ind., Nov. 20.—Governor Gray will not call a special session of the legislature. He is receiving many suggestions relative to his message, in which he proposes to give considerable space to the financial condition of the state. No democrat has yet advised him to recommend a change in the benevolent institutions, but many persons have written him relative to a new election law and a live stock commission.

General Goff Claims Election.

WHEELING, W. Va., Nov. 20.—General Goff, republican candidate for governor, telegraphs the *Intelligencer* that he is elected governor. This is the first time he has made any claims. He says that he will see that the will of the people is carried out.

THE NEW GOVERNOR.

What He Has to Say About His New Administration and Laws.

INDIANAPOLIS, November 20.—Gen. Hovey, governor elect, is in the city today and in conversation with a *Journal* reporter said that his object in spending a portion of the week at the state capital is to confer with the leading men relative to certain policies which he will advocate in his message to the legislature. He believes that there should be high and firm grounds taken in favor of a registration law; a law similar to that in force in Australia or New York. He favors also smaller voting precincts —precincts with not over 250 or 300 voters. He would also make it a crime for any one to challenge a legal voter, knowing him to be a legal voter; and he would keep at a distance of from forty to sixty feet the crowd about the polls. This, he says, can be done by means of a chute. The general also favors the application of the liquor license and dog-tax incomes to the construction of free gravel roads, from leading point to leading point at first, and then in local communities. He believes this would increase the value of lands, prove a blessing to everyone, especially those owning small farms who cannot stand turnpike or gravel road taxes.

"Then," said he, to a *Journal* reporter, "we do not need this income for the schools under the present condition of our school fund. I would also work our convicts on the public highways. It would not be competition with private labor, because it would be in a free public improvement for which neither public nor private funds would be expended. I think the people of Indiana at large, in all parties, will indorse a policy which will insure the purity of the ballot, and the construction of free gravel roads without taxes."

"How about an extra session of the legislature?" was asked.

"It is not my impression," the General replied, "that there will be an extra session. It cannot do good to the party in power; in fact I believe the people will repel it; and if only the deprivation of the offices to the new executive is in view, that can be done as well after the regular session as now. I don't think the democrats can afford it."

"Are you beseiged much by office-seekers?"

"Probably five hundred already," replied the general laughing heartily over the eagerness of the aspirants. He continued: "The offices are not important to either personal or party success. I am not sure that they give strength in any direction. What we need is some wholesome legislation. We want to begin now and do something for our state and our people. I wish I could help the soldiers of the state. They stood by us manfully this time; they have done so before. Congress should remember them promptly and liberally. About 65,000 soldier votes were cast this time in Indiana; two-thirds of them for the republican ticket."

"How do you account for your receiving less than the 10,000 majority you predicted?"

"By a less vote in the state than the increase of population indicated would be cast. If the total vote had come up to expectations our majority would have done so."

Further, during the conversation, General Hovey said of what he thought of proposing in his message to the legislature: "I want something done to lift the school book burden from the people. From five to eight hundred per cent. profits are paid on school books. There is a monopoly in the trade which should be broken. The masses will, I feel, stand by me in an effort to break up any collusion there may be between the school book publishers."

Wrestling Match at Lafayette.

LAFAYETTE, Ind., Nov. 20.—Greek George and Maj. J. McGuire wrestled here last-night for the door receipts and had a good audience. The conditions were the best three out of five falls, catch-as-catch-can. George won the first fall in twelve minutes and a half. After wrestling twelve minutes, in the second bout George secured hold on McGuire's leg and to save it McGuire gave him the match.

TWO SUICIDES!

A Chicago Man's Loss in a Wheat Corner, and a Pittsburg Woman's Despondency Causes Each to Use the Fatal Pistol.

CHICAGO, Nov. 20.—George Faebe, a member of the board of trade, commited suicide by shooting himself this morning at his boarding house on Wabash avenue. It is understood he lost about $40,000 in a September wheat corner, and, despondency growing out of the loss, is supposed to have been the cause of the act. His father lives in Cincinnati.

PITTSBURG, Pa., Nov. 20.—Mrs. Anthony Newell, the widow of the well known restaurateur, who died suddenly a few weeks ago, committed suicide at her home this morning by shooting herself through the heart. Despondency over the death of her husband, and fear that the estate was heavily involved, are the causes assigned.

SLUGGED THE GOVERNOR.

Frank and George Henning Put a Head on Their Papa.

Frank and George Henning, two boys budding into manhood, hail from Nebraska, a classic suburb over the river. The lads are industrious and well behaved, but the father and mother, Mr. and Mrs. Wm. Henning, drink, and home is anything but pleasant.

Last night the eldest boy came home after a season of hard work. The old man was in liquor and received him coldly; in fact, he grasped him by the throat to temporarily cripple his breathing capacity, but the other brother came to his assistance, and jointly they floored the governor, putting a "head" on him of the most artistic fashion.

The boys were arrested and appeared before the mayor this morning. They related the story of their woes, but Mayor Muhler counseled them that no matter what the provocation was, they must ever respect the gray hairs of their old father. He admonished them to sin no more, and with these kindly words he fined each lad one dollar.

He carried it on his person and unfortunately during the night exhibited it in a saloon. Some time after midnight, as he was going home, he was sandbagged and robbed of $2,500. Martyrs to Headache

Seek relief in vain, until they begin to use Ayer's Sarsaparilla. Then they regret the years of suffering they might have escaped had they tried this remedy earlier. The trouble was constitutional not local; and, until Ayer's Sarsaparilla did its effective work as an Alterative and Blood Purifier, they were compelled to suffer.

The wife of Samuel Page, 21 Austin st., Lowell, Mass., was, for a long time, subject to severe headaches, the result of stomach and liver disorders. A perfect cure has been effected by Ayer's Sarsaparilla.

Frank Roberts, 727 Washington st., Boston, says that he formerly had terrible headaches, and until he took Ayer's Sarsaparilla, never found any medicine that would give

Permanent Relief.

"Every Spring, for years," writes Lizzie W. DeVeau, 262 Fifteenth st., Brooklyn, N. Y., "I have had intolerable headaches. I commenced the use of Ayer's Sarsaparilla last March, and have not had a headache since that time."

"I suffered from headache, indigestion, and debility, and was hardly able to drag myself about the house," writes Mrs. M. M. Lewis, of A st., Lowell, Mass. "Ayer's Sarsaparilla has worked a marvelous change in my case. I now feel strong and well as ever."

Jonas Garman, Esq., of Lykins, Pa., writes: "For years I have suffered dreadfully, every Spring, from headache, caused by impurity of the blood and biliousness. It seemed for days and weeks that my head would split open. Nothing relieved me till I took Ayer's Sarsaparilla. This medicine has cured me completely."

When Mrs. Genevra Belanger, of 24 Bridge st., Springfield, Mass., began to use Ayer's Sarsaparilla, she had suffered for some years from a serious affection of the kidneys. Every Spring, also, she was afflicted with headache, loss of appetite, and indigestion. A friend persuaded her to use Ayer's Sarsaparilla, which benefited her wonderfully. Her health is now perfect. Martyrs to headache should try

Ayer's Sarsaparilla,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price $1; six bottles, $5. Worth $5 a bottle.

TUESDAY, NOV. 20, 1888.

THE Detroit *Free Press* says that Vice President-elect Morton is worth $20,000,000.

BENJAMIN HARRISON voted for the present civil service law. Will he enforce it?

PHILADELPHIA is credited with having contributed $600,000 to the republican national campaign fund.

THE rumor that bachelors are coming to the front is believed to be the advance guard of the Hill movement in '92.

MR. WILLIAM P. NIXON, of the *Inter-Ocean*, is a candidate for postmaster of Chicago under General Harrison's administration.

ST. LOUIS, where the democratic national convention was held, went republican. Chicago, where the republican national convention was held, went democratic.

IN several cities in New York the republican clubs and the democratic clubs have had a joint procession, the latter jollifying over Hill's election and the former over Harrison's ascendancy.

THE South Bend *Times* attributes the defeat of Judge R. Wes. McBride to his rigid enforcement of the law against betting on election two years ago. He could have endeared himself to thousands of democratic hearts by a similar course this time.

THE democrats of the state of Delaware made a sorry mess of it. They will not improve matters by indulging in a contest. They have lost a United States senator and the manly thing is to grin and bear it, and to see that it does not happen again.

DORMAN B. EATON, in his address on "Civil Service Reform" before the students of Packard's Business college was somewhat optimistic in his prophecy as to the fate of the movement under a republican administration. General Harrison, he said, was thoroughly in favor of the law, and the party, in its Chicago platform, declared that the spirit and purpose of civil service reform ought to be observed in all appointments.

THE salary of the vice president of the United States is $8,000. The salary of a representative in congress is $5,000 per annum, with an allowance of $125 per annum for stationery and twenty cents per mile of travel each annual session to and from Washington. The salary of a senator is the same, with the same allowances. The salary of the speaker of the house is the same as that of the president of the senate pro tempore—$8,000.

OLIVER CROMWELL, while visiting one of the great churches of England, discovered a number of silver statues in the niches of a side chapel. "What are these?" he demanded sternly of the trembling dean. "Please your highness," was the reply, "they are the twelve apostles." "The twelve apostles, are they? Well, take them away at once and melt them down and coin them into money, that, like their Master, they may go about doing good!"

STATE TREASURER LEMCKE'S annual statement for the fiscal year ending October 31, 1888, shows the receipts from all sources during the fiscal year to have been $4,173,617.98, which with a balance in the treasury at the beginning of the year of $373,944.21, made a fund of $4,547,562.19 available for all purposes during the year. Of this sum, however only about a half—$2,123,825.26—went into the general fund; that is, the fund from which the ordinary current expenses of the state are paid; and of so much as went into the general found $340,000 was borrowed by the state. The disbursements for all purposes during the year amounted to $4,219,836.03; and there was thus a total balance in the treasury at the close of the year of $327,726.16, or $46,218.05 less than that with which the year began.

THE supreme court has given a decision of interest. It is in a case appealed from Plymouth, and an abstract of the decision is as follows: The city of Plymouth had an ordinance prohibiting the firing of gunpowder or other explosives, except in cases where the mayor, on occasions of public rejoicing granted permission. On the Fourth of July the mayor granted permission to fire gunpowder in an anvil on a lot in the city near where there was sand and gravel. In firing the anvil pebbles and gravel were thrown against the plate glass of appellant's building, breaking them. Held: That the city is not liable for the damage. The action can not be maintained either upon the theory that there was no proper ordinance or that the ordinance was not enforced. Even if the permission granted by the mayor constituted the wrong-doers the licenses of the corporation, the city is still not liable unless it be shown that the act authorized was intrinsically dangerous. The negligent performance of the authorized act does not create a corporate liability.

ONE of the features of the Fifty-first congress will be the presence, as members, of four ex-speakers, viz: Carlisle, Randall, Banks, and Cox. There are but three other ex-speakers of congress living, Grow, of Pennsylvania; Keifer, of Ohio, and James G. Blaine.

THE supreme court of the United States has decided that a life insurance policy is not a part of the estate of an insolvent debtor, and can not be claimed by his creditors. In other words, it is held that a man has a legal right to provide for his family by insuring his life, regardless of his obligations to other people. Such a view is certainly in harmony with sound ideas of justice and fairness, though in special instances the rule may work an apparent wrong to third parties.

C. N. HASKELL.

The President of the Mahoning Road After a Newspaper's Scalp.

The *Toledo Bee* has this:

Mr. C. N. Haskell writes the *Bee* to correct an item of the *Blade* of the 15th inst., which said: "It is said that the members of the family of Mr. C. N. Haskell, of the New York Mahoning and Western road, are anxious to know his whereabouts. The report is that they have not heard from him for many weeks." Mr. Haskell requested the *Blade* to make the correction, which it refused to do. The gentleman has been actively engaged all summer and fall with the affairs of the road, which has necessitated his presence in New York and at other points where the work would call him. As to the statement that his whereabouts are unknown to his family, there has been no time when they had not the fullest knowledge. Mr. Haskell is, of course, indignant at the statements made.

A Happy Author.

Williard Spenser is probably the happiest man in the theatrical profession, and he has every reason in the world to feel so. The principal reason of this happiness is the fact that he has a successful comic opera which is strictly American, and is appreciated by the great American public. "The Little Tycoon" is the only comic opera that was written by an American that has met with any degree of success.

The public like it; they go to see it over and over again, and when "The Tycoon" begins it will, no doubt, receive cordial greeting from the lovers of charming music. The production this season is under the personal direction of the author, and is said to be the best that has ever been given. Everything is new—company, costumes and scenery. In the company this season is Catherine Linyard, Marie Sanger, Elvie Crox, Thos. Q. Seabrooke, J. Aldrich Libby, Lloyd Wilson and Joseph Mealey.

New York's Official Vote.

NEW YORK, Nov. 20.—Official returns from fifty-five counties and full returns from four others give the following totals on president and governor:

President—Harrison, R., 645,254; Cleveland, D., 682,059; Fisk, P., 20,436. Republican plurality, 13,195.

Governor—Miller, R., 626,635; Hill, D., 644,204; Jones, P., 26,840. Democratic plurality, 17,569.

The reported pluralities from the remaining counties increase Harrison's plurality in the state to 13,285, and Hill's to 17,603.

For a long time a suit has been pending against ex-Treasurer Beaver, of Huntington, to recover some $12,000, the amount it is alleged he was short when he went out of office. The case has been tried three times and yesterday, at Marion, Ind., Judge Wingate decreed the county a judgment for $14,110 against Mr. Beaver.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

A SUSPICIOUS TRAVELING-BAG.

Not long ago a well-dressed traveler stopped at a prominent hotel over night, and before leaving gave the landlord his new nickel-mounted traveling-bag, requesting him to care for it until his return in a few days.

More than a week passed, but the traveler did not return. and the landlord thought proper to communicate the fact to the authorities who had of late issued strict regulations respecting the disposal of lost articles. On closer inspection the weight of the bag was discovered to be out of all porportion to its size, for the thing weighed no less than fifty-eight pounds. This circumstance. together with the disappearance of the traveler, awakened grave suspicion, and after an active interchange of telegrams between cities, the bag was at first deposited in a cool place, and then carried by a couple of workmen, with every precaution, to a fort a couple of miles out of town, Here the suspicious article was consigned to a remote spot and no one allowed to approach it within a hundred paces. Various plans were now suggested to render the dangerous object harmless. Among other things it was proposed to drop the bag down from the edge of a cliff, thereby causing the bomb or the dynamite which it might contain to explode. This plan was, however, abandoned on the unexpected return of the traveler, who came to claim his bag from the landlord. He turned out to be a well-known commercial traveler for a hardware firm, and the cause of so much anxiety (the traveling-bag) contained neither dynamite nor shells, but only samples of tools weighing about fifty-eight pounds. The owner was not a little surprised at the sensation that his bag had produced.

Ringing Noises

In the ears, sometimes a roaring buzzing sound are caused by catarrh, that exceedingly remarkable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.

If people, troubled with colds, will take Ayer's Cherry Pectoral before going to church, they will avoid coughing. The Pectoral soothes and heals the irritated tissues, and controls all disposition to cough.

TO CHOOSE AN ORANGE.

The very sweetest orange and richest is the black or rusty-coated fruit. Pick out the dingiest oranges in the box and you will get the best. Another way to choose oranges is by weight. The heaviest are the best because they have the thinnest skin and more weight of juice. Thick-skin oranges are apt to be dry; they either weigh less because of having so much skin or because of the poverty of the juice in these particular specimens. A slight freezing on the tree causes this condition in otherwise fine fruit. The "kid glove" oranges are the two varieties of small fruit grown in Florida from stocks respectively brought from China and from Tangiers. They are called "Mandarin" and "Tangarine." They may be eaten without soiling a kid glove, because the skin is loose and the little "gores" or pockets of juice come apart very cleanly and without breaking. All the above applies to Florida oranges. The Jamaica and Havana oranges are much paler yellow and their juice is usually of more acid quality.—*The Carterer.*

Oft obscure the road that leads to health,
Unmarked by board or sign;
Wisdom avails not, powerless is wealth
To sooth those aches of thine.
But do not despair, with life there's hope,
The cloud conceals the sun;
With Pierce's Favorite Prescription at hand
You life's full course may run.

More truth than poetry in these lines, as thousands of ladies all over the land now blooming with health, testifiy to the great curative powers of Dr. Pierce's Favorite Prescription, adapted by much research and careful study to the happy relief of all those weaknesses and ailments peculiar to females. All druggists.

A GOOD character, when established, should not be rested in as an end, but only employed as a means of doing still farther good.—*Atterbury*

Ayer's Sarsaparilla acts directly and promptly, purifying and enriching the blood, improving the appetite, strengthening the nerves, and invigorating the system. It is, in the truest sense, an alterative medicine. Every invalid should give it a trial.

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe free of charge. O13deod4m-weow15t

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. mar-18-1y

POND'S EXTRA CT.

LETTERS FROM THE GOVERNORS.

It is a well-known fact that POND'S EXTRACT is used and recommended by more distinguished people than any preparation or remedy extant.

It is used in the household of the President as well as that of the humblest citizen; by members of the army and the navy, the Bar and the Bench, the pulpit and the press—all ranks and classes of people. To further illustrate this fact we append a few of the more recent letters from Governors of different States:

The Governor of New Hampshire.

GENTLEMEN: I have used POND'S EXTRACT in my family for several years, and have found it a most desirable and valuable remedy. Yours truly, MOODY CURRIER. Dec. 3, '87.

The Governor of Pennsylvania.

GENTS: POND'S EXTRACT has been a valued reliance in our family for several years, especially in relieving the aches, sprains and bruises incident to children. Very truly yours, Nov. 30, '87. JAMES A. BEAVER.

The Governor of New Jersey.

DEAR SIR: I have for many years used POND'S EXTRACT, and have derived great benefit and relief therefrom. Yours truly, Dec. 5, '87. R. S. GREEN.

The Lt.-Governor of Illinois.

GENTLEMEN: POND'S EXTRACT has long had a place in the medicine chest of my family. I assure you that we have found it a ready and valuable agent to relieve pain in many cases, and that very promptly. We cannot well keep house without it. I am, truly yours, Oct. 10. '87. J. C. SMITH,

POND'S EXTRACT is invaluable for all kinds of Pain, Inflammation and Hemorrhages.

Excellence invites imitation. Beware of worthless imitations of POND'S EXTRACT.

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet;" but they will be unless the nerves are strengthened, the blood purified, and the constipation removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." *Price $1.00.*

MASON & HAMLIN ORGANS

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequalled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with best makers, they have invariably taken the highest honors. Illustrated catalogues $22 TO $900. free.

MASON & HAMLIN PIANOS

Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1882, and now known as the "MASON & HAMLIN PIANO STRINGER," by the use of which is secured the greatest possible purity and refinement of tone, together with greatly increased capacity for standing in tune and other important advantages.

A circular, containing testimonials from three hundred purchasers, musicians, and tuners, sent, together with descriptive catalogue, to any applicant.

Pianos and Organs sold for cash or easy payments; also rented.

CURES RHEUMATISM, LAME BACK AND STIFF JOINTS. RUB IN HARD!

WE TOLD YOU SO.

E'er the ink of THE SENTINEL press was fairly dry the snow of Kansas, was the snow of Fort Wayne, Ind. We told you through the *Journal* of a part of the cold weather goods.

Have you read it? Better do so. When you visit our store you will be surprised at the vast amount of cold weather supplies. Yet, why should you be? We supply a larger territory than most of stores and must have the goods in stock.

Of storm underwear, of blankets and of comfortables we have told you.

Now then of two extremes. Your hands and your feet. Neglect their protection, (you have heard much of protection lately) and you suffer, sure.

Name any kind, color, or quality of gloves or stockings you want, we will furnish them. Or, do you want yarns? Have you in your household a dear old grandmother whose fingers and mind want to be kept employed for the children. We handle just the yarns in which she will take great delight in knitting. Then think of the knit goods.

First come Fascinators. White, Black and in colors, differing in lengths and qualities. We furnish these at 50c, 75c and $1.00 each. Then Toboggans. Every girl of the faimly wants one of these useful articles, colors of all names, qualities in any grade you may feel like paying for.

We remember the boys in this line also and for them offer a line of Jockey Caps in large variety and ranging in price from 50c to $1.00.

For misses wear we offer a new head wear, "Alpine Hat," these you must see to appreciate, they cost $1.00 each.

You never saw before in one mass so many knit hoods. Baby hoods, Childrens hoods, Misses hoods, Women's hoods, all colors, all grades, and all values.

We are mentioning winter goods, and must not forget knit skirts, these in white and colored, hand made and all wool, a necessity for you, 62c, 90c, $1.25 to $1.75.

Then scarfs, no use in having sore throats, or frozen ears, we supply you with these from 10c each and up to $1.00 each.

Flannel shirt waists also, these in reliable non fading colorings and at $1.50 and $1.75 each.

Its out of the question however for us to tell you of all in any one of our valuable papers, you have learned of enough to want to see for yourself. For most of these you will go to our former cloak room, entrance from the center of main store on north side.

ROOT & COMPANY.

CURI SITIES OF CURRENCY.

Almost every nation and tribe, as well as every epoch, has its peculiar currency. Not only gold, silver, copper, brass, iron, lead, and paper, but glass, shells, beans, books, stones, soap, bits of various colored cloth and numerous other articles have been used to represent money. The Burmese, Karens, and Ghans have no coined money, lead and silver in bullion being the ordinary tender in trade, weight and purity being the standard of value. It must be a curious spectacle to see a Burmese out on a "hurrah," with a lot of pig-lead to spend at bars.

Salt was, for a long time, the ordinary money of the Abyssinians, which rendered it difficult for them to get a fresh supply when they were broke. Fish has long been and is now the legal tender of Iceland. "Shad scales" as money probably originated there.

The Carthagenians were the first to introduce a stamped leather currency. Leather coins with a silver nail in the center were issued in France by King John the Good in 1360, but they are not good now.

In the interior towns of Northern China slips of the bark of mulberry tree, bearing the imperial "chop" and a stamp to denote their worth, have long been used as we use bank notes, and malefactors who counterfeited them got the imperial "chop" also. Marco Polo found this kind of money there in his time, and they have still an extensive local circulation.

In some small villages in Scotland laborers formerly carried in their pockets nails in place of coin to pay "on the nail" for the day's supply of bread and ale, just as a native Australian divests himself of a string of beads for the purchase of some coveted luxury.

A Scotch missionary to a little group of islands in the South Pacific found bits of red flannel circulating as money, when they were not needed to tie up a sore throat. This came about in a curious manner. The body of a shipwrecked sailor had drifted ashore, and to these untutored savages, who had never before seen clothing of and description, his red flannel shirt was an object of wonder and admiration. By common consent they cut the garment into shreds, which thenceforth became the currency of the island. A savage destitute of flannel was said to have "nary red," we suppose.—*Texas Siftings.*

The Indianapolis car company is now working on an order of 2,000 cars and when this is finished they will commence an order for 2,500 cars. The employes are working night and day.

An earnest effort is being made to get the Wabash road out of the hands of the courts before the 1st of January in order that it may begin the year under favorable circumstances.

The moulding rooms at the Bass works were closed down to-day so as to allow the employes an opportunity of attending the funeral of Charles Pliett, which they did this afternoon marching in a body.

Mr. Abel Fisher, foreman of the Pittsburg lumber yard, left for Columbus, Ohio, to-day to visit his son-in-law, Mr. E. Pierson, who is a foreman in one of the departments of the Pan Handle railroad shops at that city.

General Master Workman Powderly has an offer from the *New York World* to write for that paper at a salary of $6,000 a year. He has declined, prefering to remain at the head of the Knights of Labor at a salary of $3,500.

A large number of the employes of the Bass foundry attended the funeral of Mr. Charles Pliett, this afternoon. He was highly regarded by his fellow workman and had a great number of warm friends. He was the owner of a house and lot on John street at the time of his death. Two or three of his sons are now holding positions at the Bass works as moulders.

Mr. Elijah Faulkner, a farmer who lives three miles west of the city, was walking along the Pittsburg track last evening a short distance west of Broadway when he was struck by a west bound train and hurled into the ditch. He suffered a compound fracture of the left elbow joint. He was taken to a boarding house on East Main street, where Drs. W. H. and H. S. Myers dressed his injuries and he left for his home to-day.

The Nickel Plate has adopted the standard system of rules governing the movement of trains and the telegraph operators along the two western divisions between Bellevue and Chicago are being instructed by a party of railway officials consisting of Superintendent Gorham, Civil Engineer Pardee, Trainmaster Blair and Chief Train Dispatcher Caldwell.

Mrs. Mary Doran's trial for the murder of her husband begins Tuesday morning at Columbus. He was an engineer and she had not been living with him for some months. Last June she went to him, and said she would go away the next day, and so they retired together at the Ferrill house of that city. About 2 o'clock the household was startled by screams coming from the room occupied by the couple, and soon Mrs. Doran came running down stairs, saying her husband was sick. The room was entered and the man was found to be dying. His face and body were horribly burned with carbolic acid. The following morning the empty bottle which had contained the posion was found on the ground, just outside of the window opening out of the room occupied by the couple. The guilt was at once fastened upon Mrs. Doran, and her arrest took place immediately. At first she denied having committed the deed, but she finally made a confession, claiming, however, that she only intended to disfigure her husband so that other women would not admire him.

IT'S A GO.

The Mayor, City Attorney and Finance Committee Approve the Natural Gas Ordinance.

Yesterday afternoon, Mayor Muhler, City Attorney Colerick and the finance committee, Messrs. Doehrman, Read and Ely, met at the city hall to consider the new natural gas ordinance, which comes before the council for passage to-night.

They talked the ordinance all over and discussed the subject in all its phases, determining finally to recommend its passage as printed in THE SENTINEL, with these attachments:

First—The Salamonie gas company must file a bond of $5,000 with the city treasurer, binding them, after they accept the ordinance, to comply with its provisions.

Second—They must bind themselves to pipe natural gas into Fort Wayne on or before January 1, 1892.

With these provisions the ordinance will pass to-night and the question of natural gas is solved.

The mayor, city attorney and finance committee afterward held a consultation with the board of water works trustees and agreed to offer R. D. Wood & Co. $5,780 in settlement of their claim against the city.

"SPYISM."

Is What Harry Calls Powderly's Administration of the Affairs of the Knights of Labor.

INDIANAPOLIS, Nov. 20.—"Spyism" is the theme of T. B. Barry's second chapter in the serial story he is publishing about the actions of the Powderly administration of the affairs of the Knights of Labor. He goes over the actions of the various delegates at Richmond, at Minneapolis, and in this city and accuses them of spying upon the actions of all the delegates suspected of opposing Powderly. In this instalment of the story, which was given to the press late last night, he also gives the names of members of the order whom he says Powderly and the board discharged to make places for non-unio clerks who were their pets.

Barry and his friends are expressing great indignation at the action of the general assembly about the report of the grievance committee in the cases of Gleason and Bloomy. They say those cases are similar to that of Barry, and the action was very inconsistent. Already telegrams of sympathy and expressing a desire to join him have been received from many parts of the country by Barry. These come, in several instances, from officers of local assemblies of Knights of Labor, and Barry counts on their support in his new organization.

The report of the committee on law provides a reduction of two members in each board besides the union of the offices of secretary and treasurer. It also provides that the general master workman shall be chairman of the board.

A BAD WRECK.

Several Persons Injured in an Ohio Railroad Wreck.

CINCINNATI, Nov. 20.—The Harrison accommodation on the Cincinnati, Indianapolis, St. Louis and Chicago road, due here at 7:18 this morning, left the track, by reason of the spreading of the rails, about two miles this side of Harrison, and overturned five coaches.

The train of five cars was turning the curve when the outer rail broke under the engine, which remained on the track, but the cars were all thrown off and overturned in the old canal bed. Only the rear car had a fire in it, and the wreck caught fire. The engineer ran back and soon put out the flames. There were about forty passengers aboard, nearly all of whom were more or less injured.

The following however are those most seriously hurt: Mrs. Martha Moore, aged 80 years, of Wilmington, Ohio, will probably die; Mrs. Margaret Carroll, aged 60 years, Cincinnati, internal injuries; James P. Dick, Harrison, Ohio, body cut about the head; Miss May Green Harrison, wounds in the head and face; George Yeager Harrison, right hand hurt; Harvey Hamilton Harrison, seriously hurt in the head. Mr. Scott Small, of the Cincinnati *Times Star*, was in the wreck and was painfully cut and bruised, but made his way to the office with his report.

NEW ALBANY, Ind., November 20.—Judge Simeon K. Wolfe died at his home in New Albany yesterday at 10:30 o'clock a. m., after a brief illness of pneumonia, in the sixty-fifth year of his age.

NO SPECIAL SESSION.

The Hoosier Legislators Not Likely to be Called Together.

INDIANAPOLIS, Ind., Nov. 20.—Governor Gray will not call a special session of the legislature. He is receiving many suggestions relative to his message, in which he proposes to give considerable space to the financial condition of the state. No democrat has yet advised him to recommend a change in the benevolent institutions, but many persons have written him relative to a new election law and a live stock commission.

General Goff Claims Election.

WHEELING, W. Va., Nov. 20.—General Goff, republican candidate for governor, telegraphs the *Intelligencer* that he is elected governor. This is the first time he has made any claims. He says that he will see that the will of the people is carried out.

THE NEW GOVERNOR.

What He Has to Say About His New Administration and Laws.

INDIANAPOLIS, November 20.—Gen. Hovey, governor elect, is in the city today and in conversation with a *Journal* reporter said that his object in spending a portion of the week at the state capital is to confer with the leading men relative to certain policies which he will advocate in his message to the legislature. He believes that there should be high and firm grounds taken in favor of a registration law; a law similar to that in force in Australia or New York. He favors also smaller voting precincts—precincts with not over 250 or 300 voters. He would also make it a crime for any one to challenge a legal voter, knowing him to be a legal voter; and he would keep at a distance of from forty to sixty feet the crowd about the polls. This, he says, can be done by means of a chute. The general also favors the application of the liquor license and dog-tax incomes to the construction of free gravel roads, from leading point to leading point at first, and then in local communities. He believes this would increase the value of lands, prove a blessing to everyone, especially those owning small farms who cannot stand turnpike or gravel road taxes.

"Then," said he, to a *Journal* reporter, "we do not need this income for the schools under the present condition of our school fund. I would also work our convicts on the public highways. It would not be competition with private labor, because it would be in a free public improvement for which neither public nor private funds would be expended. I think the people of Indiana at large, in all parties, will indorse a policy which will insure the purity of the ballot, and the construction of free gravel roads without taxes."

"How about an extra session of the legislature?" was asked.

"It is not my impression," the General replied, "that there will be an extra session. It cannot do good to the party in power; in fact I believe the people will repel it; and if only the deprivation of the offices to the new executive is in view, that can be done as well after the regular session as now. I don't think the democrats can afford it."

"Are you beseiged much by office-seekers?"

"Probably five hundred already," replied the general laughing heartily over the eagerness of the aspirants. He continued: "The offices are not important to either personal or party success. I am not sure that they give strength in any direction. What we need is some wholesome legislation. We want to begin now and do something for our state and our people. I wish I could help the soldiers of the state. They stood by us manfully this time; they have done so before. Congress should remember them promptly and liberally. About 65,000 soldier votes were cast this time in Indiana; two-thirds of them for the republican ticket."

"How do you account for your receiving less than the 10,000 majority you predicted?"

"By a less vote in the state than the increase of population indicated would be cast. If the total vote had come up to expectations our majority would have done so."

Further, during the conversation, General Hovey said of what he thought of proposing in his message to the legislature: "I want something done to lift the school book burden from the people. From five to eight hundred per cent. profits are paid on school books. There is a monopoly in the trade which should be broken. The masses will, I feel, stand by me in an effort to break up any collusion there may be between the school book publishers."

Wrestling Match at Lafayette.

LAFAYETTE, Ind., Nov. 20.—Greek George and Maj. J. McGuire wrestled here last-night for the door receipts and had a good audience. After wrestling twelve minutes, in the second bout George secured hold on McGuire's leg and to save it McGuire gave him the match.

TWO SUICIDES!

A Chicago Man's Loss in a Wheat Corner, and a Pittsburg Woman's Despondency Causes Each to Use the Fatal Pistol.

CHICAGO, Nov. 20.—George Faebe, a member of the board of trade, committed suicide by shooting himself this morning at his boarding house on Wabash avenue. It is understood he lost about $40,000 in a September wheat corner, and, despondency growing out of the loss, is supposed to have been the cause of the act. His father lives in Cincinnati.

PITTSBURG, Pa., Nov. 20.—Mrs. Anthony Newell, the widow of the well known restaurateur, who died suddenly a few weeks ago, committed suicide at her home this morning by shooting herself through the heart. Despondency over the death of her husband, and fear that the estate was heavily involved, are the causes assigned.

SLUGGED THE GOVERNOR.

Frank and George Henning Put a Head on Their Papa.

Frank and George Henning, two boys budding into manhood, hail from Nebraska, a classic suburb over the river. The lads are industrious and well behaved, but the father and mother, Mr. and Mrs. Wm. Henning, drink, and home is anything but pleasant.

Last night the eldest boy came home after a season of hard work. The old man was in liquor and received him coldly; in fact, he grasped him by the throat to temporarily cripple his breathing capacity, but the other brother came to his assistance, and jointly they floored the governor, putting a "head" on him of the most artistic fashion.

The boys were arrested and appeared before the mayor this morning. They related the story of their woes, but Mayor Muhler counseled them that no matter what the provocation was, they must ever respect the gray hairs of their old father. He admonished them to sin no more, and with these kindly words he fined each lad one dollar.

ACCIDENTS TO AGED WOMEN.

Mrs. Weaver Dies From Her Injuries and Mrs. Smith is Seriously Hurt.

He carried it on his person and unfortunately during the night exhibited it in a saloon. Some time after midnight, as he was going home, he was sandbagged and robbed of $2,500. Martyrs to Headache

Seek relief in vain, until they begin to use Ayer's Sarsaparilla. Then they regret the years of suffering they might have escaped had they tried this remedy earlier. The trouble was constitutional not local; and, until Ayer's Sarsaparilla did its effective work as an Alterative and Blood Purifier, they were compelled to suffer.

The wife of Samuel Page, 21 Austin st., Lowell, Mass., was, for a long time, subject to severe headaches, the result of stomach and liver disorders. A perfect cure has been effected by Ayer's Sarsaparilla.

Frank Roberts, 727 Washington st., Boston, says that he formerly had terrible headaches, and until he took Ayer's Sarsaparilla, never found any medicine that would give

Permanent Relief.

"Every Spring, for years," writes Lizzie W. DeVean, 262 Fifteenth st., Brooklyn, N. Y., "I have had intolerable headaches. I commenced the use of Ayer's Sarsaparilla last March, and have not had a headache since that time."

"I suffered from headache, indigestion, and debility, and was hardly able to drag myself about the house," writes Mrs. M. M. Lewis, of A st., Lowell, Mass. "Ayer's Sarsaparilla has worked a marvelous change in my case. I now feel strong and well as ever."

Jonas Garman, Esq., of Lyktns, Pa., writes: "For years I have suffered dreadfully, every Spring, from headache, caused by impurity of the blood and bilousness. It seemed for days and weeks that my head would split open. Nothing relieved me till I took Ayer's Sarsaparilla. This medicine has cured me completely."

When Mrs. Genevra Balanger, of 24 Bridge st., Springfield, Mass., began to use Ayer's Sarsaparilla, she had suffered for some years from a serious affection of the kidneys. Every Spring, also, she was afflicted with headache, loss of appetite, and indigestion. A friend persuaded her to use Ayer's Sarsaparilla, which benefited her wonderfully. Her health is now perfect. Martyrs to headache should try

Ayer's Sarsaparilla,

EPPS' COCOA
BREAKFAST.

"By a thorough knowledge of the natural law which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage, which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil service Gazette.

Fort Wayne Sentinel.

E. A. K. Hackett, Editor and Proprietor.

TUESDAY, NOV. 20, 1888.

The Detroit *Free Press* says that Vice President-elect Morton is worth $20,000,000.

Benjamin Harrison voted for the present civil service law. Will he enforce it?

Philadelphia is credited with having contributed $600,000 to the republican national campaign fund.

The rumor that bachelors are coming to the front is believed to be the advance guard of the Hill movement in '92.

Mr. William P. Nixon, of the *Inter-Ocean*, is a candidate for postmaster of Chicago under General Harrison's administration.

St. Louis, where the democratic national convention was held, went republican. Chicago, where the republican national convention was held, went democratic.

In several cities in New York the republican clubs and the democratic clubs have had a joint procession, the latter jollifying over Hill's election and the former over Harrison's ascendancy.

The South Bend *Times* attributes the defeat of Judge R. Wes. McBride to his rigid enforcement of the law against betting on election two years ago. He could have endeared himself to thousands of democratic hearts by a similar course this time.

The democrats of the state of Delaware made a sorry mess of it. They will not improve matters by indulging in a contest. They have lost a United States senator and the manly thing is to grin and bear it, and to see that it does not happen again.

Dorman B. Eaton, in his address on "Civil Service Reform" before the students of Packard's Business college was somewhat optimistic in his prophecy as to the fate of the movement under a republican administration. General Harrison, he said, was thoroughly in favor of the law, and the party, in its Chicago platform, declared that the spirit and purpose of civil service reform ought to be observed in all appointments.

The salary of the vice president of the United States is $8,000. The salary of a representative in congress is $5,000 per annum, with an allowance of $125 per annum for stationery and twenty cents per mile of travel each annual session to and from Washington. The salary of a senator is the same, with the same allowances. The salary of the speaker of the house is the same as that of the president of the senate pro tempore—$8,000.

Oliver Cromwell, while visiting one of the great churches of England, discovered a number of silver statues in the niches of a side chapel. "What are these?" he demanded sternly of the trembling dean. "Please your highness," was the reply, "they are the twelve apostles." "The twelve apostles, are they? Well, take them away at once and melt them down and coin them into money, that, like their Master, they may go about doing good!"

State Treasurer Lemcke's annual statement for the fiscal year ending October 31, 1888, shows the receipts from all sources during the fiscal year to have been $4,173,617.98, which with a balance in the treasury at the beginning of the year of $373,944.21, made a fund of $4,547,562.19 available for all purposes during the year. Of this sum, however only about a half—$2,123,825.26—went into the general fund; that is, the fund from which the ordinary current expenses of the state are paid; and of so much as went into the general found $340,000 was borrowed by the state. The disbursements for all purposes during the year amounted to $4,219,836.03; and there was thus a total balance in the treasury at the close of the year of $327,726.16, or $46,218.05 less than that with which the year began.

The supreme court has given a decision of interest. It is in a case appealed from Plymouth, and an abstract of the decision is as follows: The city of Plymouth had an ordinance prohibiting the firing of gunpowder or other explosives, except in cases where the mayor, on occasions of public rejoicing granted permission. On the Fourth of July the mayor granted permission to fire gunpowder in an anvil on a lot in the city near where there was sand and gravel. In firing the anvil pebbles and gravel were thrown against the plate glass of appellant's building, breaking them. Held: That the city is not liable for the damage. The action can not be maintained either upon the theory that there was no proper ordinance or that the ordinance was not enforced. Even if the permission granted by the mayor constituted the wrong-doers the licenses of the corporation, the city is still not liable unless it be shown that the act authorized was intrinsically dangerous. The negligent performance of the authorized act does not create a corporate liability.

One of the features of the Fifty-first congress will be the presence, as members, of four ex-speakers, viz: Carlisle, Randall, Banks, and Cox. There are but three other ex-speakers of congress living, Grow, of Pennsylvania; Keifer, of Ohio, and James G. Blaine.

The supreme court of the United States has decided that a life insurance policy is not a part of the estate of an insolvent debtor, and can not be claimed by his creditors. In other words, it is held that a man has a legal right to provide for his family by insuring his life, regardless of his obligations to other people. Such a view is certainly in harmony with sound ideas of justice and fairness, though in special instances the rule may work an apparent wrong to third parties.

C. N. HASKELL.

The President of the Mahoning Road After a Newspaper's Scalp.

The *Toledo Bee* has this:

Mr. C. N. Haskell writes the *Bee* to correct an item of the *Blade* of the 15th inst., which said: "It is said that the members of the family of Mr. C. N. Haskell, of the New York Mahoning and Western road, are anxious to know his whereabouts. The report is that they have not heard from him for many weeks." Mr. Haskell requested the *Blade* to make the correction, which it refused to do. The gentleman has been actively engaged all summer and fall with the affairs of the road, which has necessitated his presence in New York and at other points where the work would call him. As to the statement that his whereabouts are unknown to his family, there has been no time when they had not the fullest knowledge. Mr. Haskell is, of course, indignant at the statements made.

A Happy Author.

Williard Spenser is probably the happiest man in the theatrical profession, and he has every reason in the world to feel so. The principal reason of this happiness is the fact that he has a successful comic opera which is strictly American, and is appreciated by the great American public. "The Little Tycoon" is the only comic opera that was written by an American that has met with any degree of success.

The public like it; they go to see it over and over again, and when "The Tycoon" begins it will, no doubt, receive cordial greeting from the lovers of charming music. The production this season is under the personal direction of the author, and is said to be the best that has ever been given. Everything is new—company, costumes and scenery. In the company this season is Catherine Linyard, Marie Sanger, Elvie Crox, Thos. Q. Seabrooke, J. Aldrich Libby, Lloyd Wilson and Joseph Mealey.

New York's Official Vote.

New York, Nov. 20.—Official returns from fifty-five counties and full returns from four others give the following totals on president and governor:

President—Harrison, R., 645,254; Cleveland, D., 682,059; Fisk, P., 20,436. Republican plurality, 13,195.

Governor—Miller, R., 626,635; Hill, D., 644,204; Jones, P., 26,840. Democratic plurality, 17,569.

The reported pluralities from the remaining counties increase Harrison's plurality in the state to 13,285, and Hill's to 17,603.

For a long time a suit has been pending against ex-Treasurer Beaver, of Huntington, to recover some $12,000, the amount it is alleged he was short when be went out of office. The case has been tried three times and yesterday, at Marion, Ind., Judge Wingate decreed the county a judgment for $14,110 against Mr. Beaver.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

A SUSPICIOUS TRAVELING-BAG.

Not long ago a well-dressed traveler stopped at a prominent hotel over night, and before leaving gave the landlord his new nickel-mounted traveling-bag, requesting him to care for it until his return in a few days.

More than a week passed, but the traveler did not return, and the landlord thought proper to communicate the fact to the authorities who had of late issued strict regulations respecting the disposal of lost articles. On closer inspection the weight of the bag was discovered to be out of all porportion to its size, for the thing weighed no less than fifty-eight pounds. This circumstance, together with the disappearance of the traveler, awakened grave suspicion, and after an active interchange of telegrams between cities, the bag was at first deposited in a cool place, and then carried by a couple of workmen, with every precaution, to a fort a couple of miles out of town. Here the suspicious article was consigned to a remote spot and no one allowed to approach it within a hundred paces. Various plans were now suggested to render the dangerous object harmless. Among other things it was proposed to drop the bag down from the edge of a cliff, thereby causing the bomb or the dynamite which it might contain to explode. This plan was, however, abandoned on the unexpected return of the traveler, who came to claim his bag from the landlord. He turned out to be a well-known commercial traveler for a hardware firm, and the cause of so much anxiety (the traveling-bag) contained neither dynamite nor shells, but only samples of tools weighing about fifty-eight pounds. The owner was not a little surprised at the sensation that his bag had produced.

Ringing Noises

In the ears, sometimes a roaring buzzing sound are caused by catarrh, that exceedingly remarkable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.

If people, troubled with colds, will take Ayer's Cherry Pectoral before going to church, they will avoid coughing. The Pectoral soothes and heals the irritated tissues, and controls all disposition to cough.

TO CHOOSE AN ORANGE.

The very sweetest orange and richest is the black or rusty-coated fruit. Pick out the dingiest oranges in the box and you will get the best. Another way to choose oranges is by weight. The heaviest are the best because they have the thinnest skin and more weight of juice. Thick-skin oranges are apt to be dry; they either weigh less because of having so much skin or because of the poverty of the juice in these particular specimens. A slight freezing on the tree causes this condition in otherwise fine fruit. The "kid-glove" oranges are the two varieties of small fruit grown in Florida from stocks respectively brought from China and from Tangiers. They are called "Mandarin" and "Tangarine." They may be eaten without soiling a kid glove, because the skin is loose and the little "gores" or pockets of juice come apart very cleanly and without breaking. All the above applies to Florida oranges. The Jamaica and Havana oranges are much paler yellow and their juice is usually of more acid quality.—*The Carterer.*

Oft obscure the road that leads to health,
Unmarked by board or sign;
Wisdom avails not, powerless is wealth
To sooth those aches of thine.
But do not despair, with life there's hope,
The cloud conceals the sun;
With Pierce's Favorite Prescription at hand
You life's full course may run.

More truth than poetry in these lines, as thousands of ladies all over the land now blooming with health, testifly to the great curative powers of Dr. Pierce's Favorite Prescription, adapted by much research and careful study to the happy relief of all those weaknesses and ailments peculiar to females. All druggists.

A good character, when established, should not be rested in as an end, but only employed as a means of doing still farther good.—*Atterbury*

Ayer's Sarsaparilla acts directly and promptly, purifying and enriching the blood, improving the appetite, strengthening the nerves, and invigorating the system. It is, in the truest sense, an alterative medicine. Every invalid should give it a trial.

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe free of charge. O13deod4m-weow15t

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. mar-18-1y

POND'S EXTRACT.

LETTERS FROM THE GOVERNORS.

It is a well-known fact that Pond's Extract is used and recommended by more distinguished people than any preparation or remedy extant.

It is used in the household of the President as well as that of the humblest citizen; by members of the army and the navy, the Bar and the Bench, the pulpit and the press—all ranks and classes of people. To further illustrate this fact we append a few of the more recent letters from Governors of different States:

The Governor of New Hampshire.

Gentlemen: I have used Pond's Extract in my family for several years, and have found it a most desirable and valuable remedy. Yours truly, Moody Currier.
Dec. 3, '87.

The Governor of Pennsylvania.

Gents: Pond's Extract has been a valued reliance in our family for several years, especially in relieving the aches, sprains and bruises incident to children. Very truly yours,
Nov. 30, '87. James A. Beaver.

The Governor of New Jersey.

Dear Sir: I have for many years used Pond's Extract, and have derived great benefit and relief therefrom. Yours truly,
Dec. 5, '87. R. S. Green.

The Lt.-Governor of Illinois.

Gentlemen: Pond's Extract has long had a place in the medicine chest of my family. I assure you that we have found it a ready and valuable agent to relieve pain in many cases, and that very promptly. We cannot well keep house without it.
I am, truly yours,
Oct. 10, '87. J. C. Smith.

Pond's Extract is invaluable for all kinds of Pain, Inflammation and Hemorrhages.
Excellence invites imitation. Beware of worthless imitations of Pond's Extract.

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet;" but they will be unless the nerves are strengthened, the blood purified, and the constipation removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." *Price $1.00.*

MASON & HAMLIN

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequalled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with best makers of all countries, they have invariably taken the highest honors. Illustrated catalogues free. **ORGANS** $22 To $900.

Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1882, and now known as the "Mason & Hamlin Piano Stringer," by the use of which is secured the greatest possible purity and refinement of tone, together with greatly increased capacity for standing in tune and other important advantages. **PIANOS** GRAND & UPRIGHT.

A circular, containing testimonials from three hundred purchasers, musicians, and tuners, sent, together with descriptive catalogue, to any applicant.

Pianos and Organs sold for cash or easy payments; also rented.

WE TOLD YOU SO.

E'er the ink of THE SENTINEL press was fairly dry the snow of Kansas, was the snow of Fort Wayne, Ind. We told you through the *Journal* of a part of the cold weather goods.

Have you read it? Better do so. When you visit our store you will be surprised at the vast amount of cold weather supplies. Yet, why should you be? We supply a larger territory than most of stores and must have the goods in stock.

Of storm underwear, of blankets and of comfortables we have told you.

Now then of two extremes. Your hands and your feet. Neglect their protection, (you have heard much of protection lately) and you suffer, sure.

Name any kind, color, or quality of gloves or stockings you want, we will furnish them. Or, do you want yarns? Have you in your household a dear old grandmother whose fingers and mind want to be kept employed for the children. We handle just the yarns in which she will take great delight in knitting. Then think of the knit goods.

First come Fascinntors. White, Black and in colors, differing in lengths and qualities. We furnish these at 50c, 75c and $1.00 each. Then Toboggans. Every girl of the fairnly wants one of these useful articles, colors of all names, qualities in any grade you may feel like paying for.

We remember the boys in this line also and for them offer a line of Jockey Caps in large variety and ranging in price from 50c to $1.00.

For misses wear we offer a new head wear, "Alpine Hat," these you must see to appreciate, they cost $1.00 each.

You never saw before in one mass so many knit hoods. Baby hoods, Childrens hoods, Misses hoods, Women's hoods, all colors, all grades, and all values.

We are mentioning winter goods, and must not forget knit skirts, these in white and colored, hand made and all wool, a necessity for you, 62c, 90c, $1.25 to $1.75.

Then scarfs, no use in having sore throats, or frozen ears, we supply you with these from 10c each and up to $1.00 each.

Flannel shirt waists also, these in reliable non fading colorings and at $1.50 and $1.75 each.

Its out of the question however for us to tell you of all in any one of our valuable papers, you have learned of enough to want to see for yourself. For most of these you will go to our former cloak room, entrance from the center of main store on north side.

ROOT & COMPANY.

CURI SITIES OF CURRENCY.

Almost every nation and tribe, as well as every epoch, has its peculiar currency. Not only gold, silver, copper, brass, iron, lead, and paper, but glass, shells, beans, books, stones, soap, bits of various colored cloth and numerous other articles have been used to represent money. The Burmese, Karens, and Ghans have no coined money, lead and silver in bullion being the ordinary tender in trade, weight and purity being the standard of value. It must be a curious spectacle to see a Burmese out on a "hurrah," with a lot of pig-lead to spend at bars.

Salt was, for a long time, the ordinary money of the Abyssinians, which rendered it difficult for them to get a fresh supply when they were broke. Fish has long been and is now the legal tender of Iceland. "Shad scales" as money probably originated there.

The Carthagenians were the first to introduce a stamped leather currency. Leather coins with a silver nail in the center were issued in France by King John the Good in 1360, but they are not good now.

In the interior towns of Northern China slips of the bark of mulberry tree, bearing the imperial "chop" and a stamp to denote their worth, have long been used as we use bank notes, and malefactors who counterfeited them got the imperial "chop" also. Marco Polo found this kind of money there in his time, and they have still an extensive local circulation.

In some small villages in Scotland laborers formerly carried in their pockets nails in place of coin to pay "on the nail" for the day's supply of bread and ale, just as a native Australian divests himself of a string of beads for the purchase of some coveted luxury.

A Scotch missionary to a little group of islands in the South Pacific found bits of red flannel circulating as money, when they were not needed to tie up a sore throat. This came about in a curious manner. The body of a shipwrecked sailor had drifted ashore, and to these untutored savages, who had never before seen clothing of and description, his red flannel shirt was an object of wonder and admiration. By common consent they cut the garment into shreds, which thenceforth became the currency of the island. A savage destitute of flannel was said to have "nary red," we suppose.—*Texas Siftings.*

About 2 o'clock the household was startled by screams coming from the room occupied by the couple, and soon Mrs. Doran came running down stairs, saying her husband was sick. The room was entered and the man was found to be dying. His face and body were horribly burned with carbolic acid. The following morning the empty bottle which had contained the poison was found on the ground, just outside of the window opening out of the room occupied by the couple. The guilt was at once fastened upon Mrs. Doran, and her arrest took place immediately. At first she denied having committed the deed, but she finally made a confession, claiming, however, that she only intended to disfigure her husband so that other women would not admire him.

Yesterday afternoon, Mayor Muhler, City Attorney Colerick and the finance committee, Messrs. Doehrman, Read and Ely, met at the city hall to consider the new natural gas ordinance, which comes before the council for passage to-night.

First—The Salamonie gas company must file a bond of $5,000 with the city treasurer, binding them, after they accept the ordinance, to comply with its provisions.

Second—They must bind themselves to pipe natural gas into Fort Wayne on or before January 1, 1892.

With these provisions the ordinance will pass to-night and the question of natural gas is solved.

The mayor, city attorney and finance committee afterward held a consultation with the board of water works trustees and agreed to offer R. D. Wood & Co. $5,780 in settlement of their claim against the city.
